## Packing hacks for your upcoming trip

### Make a packing list

Save time and effort by making a list of everything you need upfront. It actually makes packing it all a breeze!

### Roll, don't fold

Maximize space and minimize creases with this tried-and-trusted technique.

### Pack in order

Checking in late? Pack clothes you need first on top for easy-to-bed breeziness.

### Stash an outfit change

Jetting off? Avoid lost-luggage dramas by packing a change of clothes & toiletries in your carry-on.

### Evade bottle breaks and liquid limits

Spritz outfits with perfume before you pack and leave breakable bottles at home.
